What is a decision support tool?

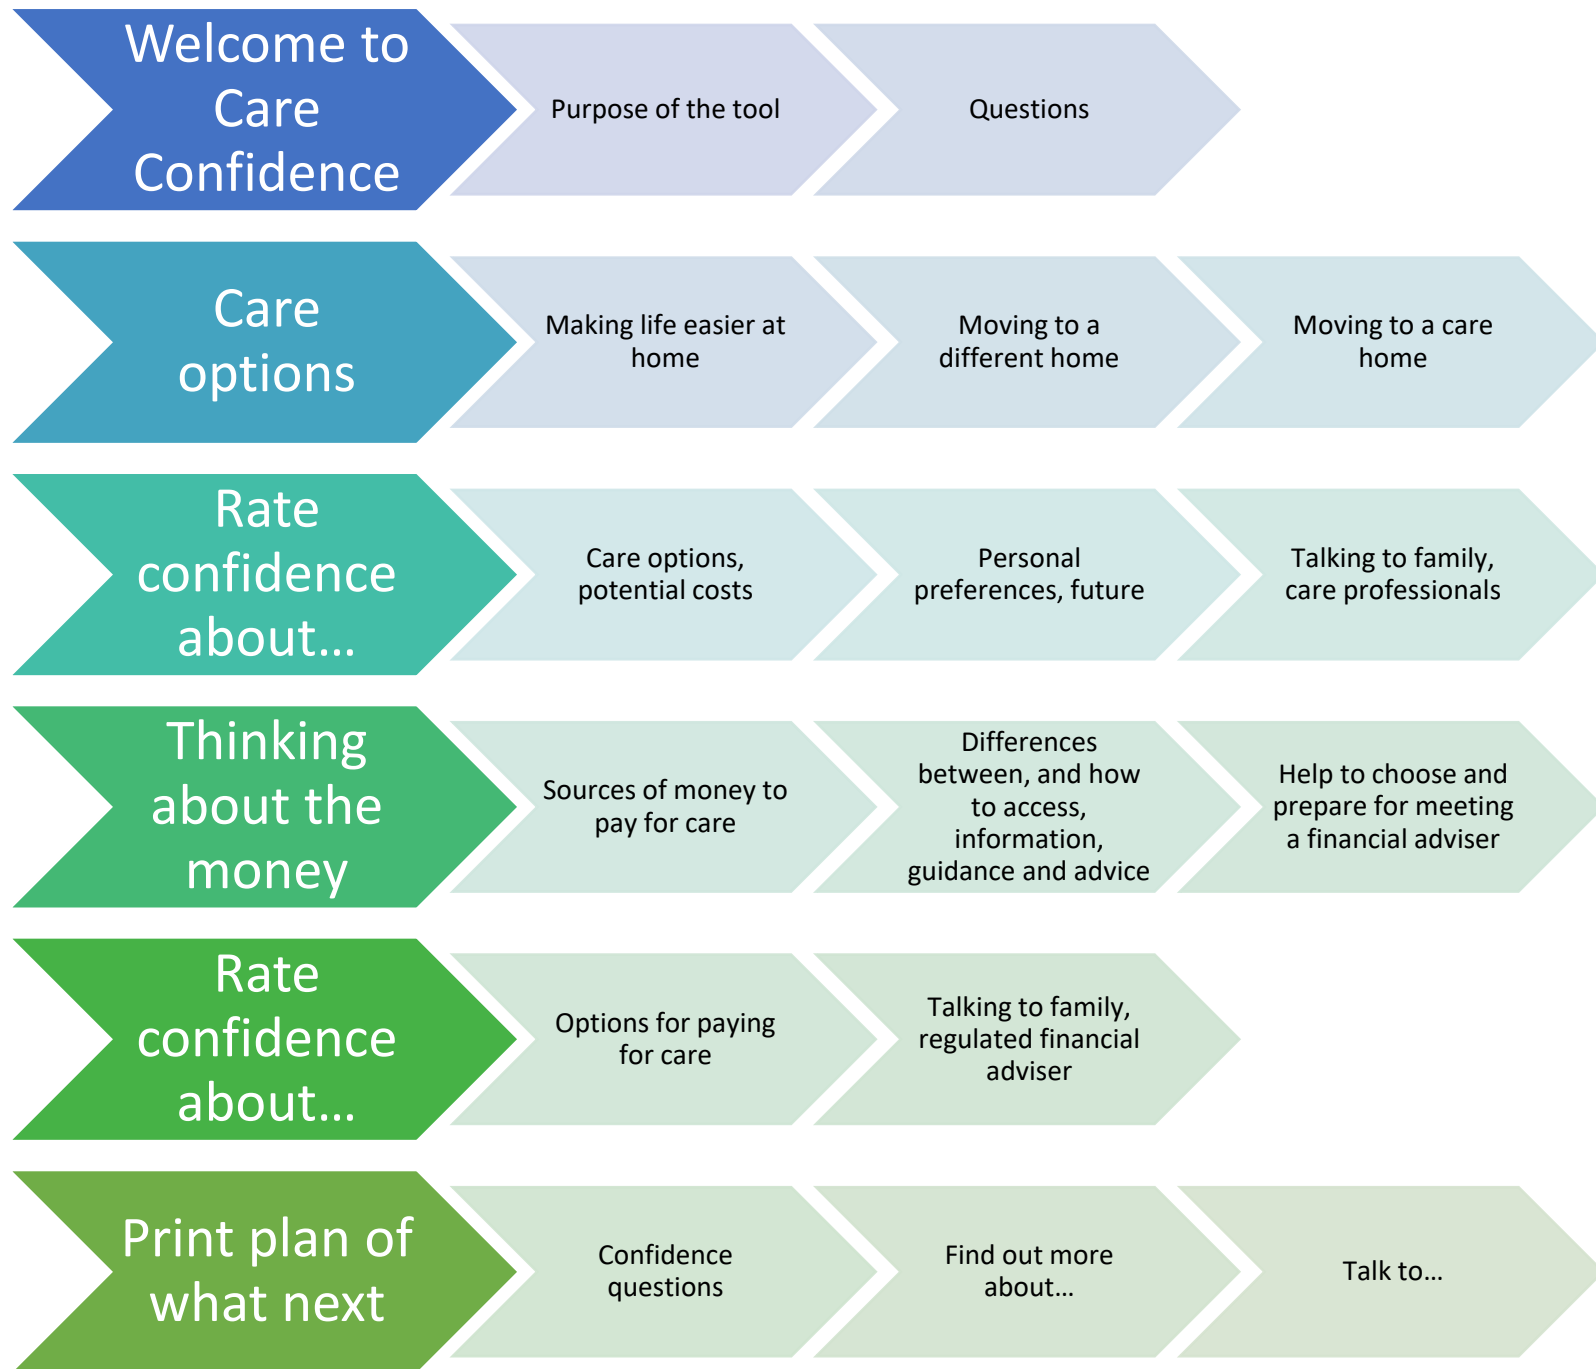

- Resource designed to support people's decisions by...
 - providing information on options, including risks and benefits
 - helping people clarify personal values and preferences
- Key aim
 - Help people make better quality decisions

Why do we need a decision support tool for self-funders?

- Complex, crisis point, emotional, overwhelming
- Money is a major concern
- Reluctant to seek financial advice, increases sense of control
- Encourage active thinking and confidence to take next steps

Care Confidence

Demonstration of prototype decision support tool

<https://www.careconfidence.org.uk/>

What next?

- Public testing to end August
- Initial evaluation by end October
- Further development and fuller evaluation
- Initial impressions?
